MSc International Business Graduate | AI & Data | Technology Strategy & Digital Transformation | Trilingual: English, French, Arabic

Currently supporting Safran as a Strategy Consultant in Digital Transformation. Experienced in translating business needs into technology solutions across industrial and aviation environments. Combines ambition, strategy, AI literacy and international exposure with a strong interest in emerging technologies, innovation, digital and smart infrastructure. Driven by the purpose of contributing to a more prosperous and sustainable future through solution development, product management and large-scale project implementation. Willing to relocate.

EXPERIENCE

Devoteam Digital Impulse | Strategy Consultant in Digital Transformation — Paris, France Jul 2026 – Present

- **AI Product Design & Ethical Data –** Designed and led the delivery of 5+ AI agents and agentic workflows with technical engineers, from ideation to implementation, applying responsible AI principles and ethical data use.
- **Digital Transformation –** Contributed to the digital transformation and change management of Safran's Information Systems Department, from solution design through methodology implementation – supporting initiatives aligned with the group's 2030 business objectives.
- **Process Automation –** Automated variance analysis, data consolidation and reporting using Excel (VBA) and Python – cutting task time from 20 to 5 minutes per item and freeing 15+ hours monthly for strategic work.
- **PMO & Reporting –** Acted as team PMO, tracking progress, coordinating stakeholders, conducting gap analysis and producing management reporting.
- **Business Analysis –** Coordinated stakeholder participation across 3+ business teams, gathering requirements through workshops and translating business needs into actionable project activities.
- **AI Enablement –** Facilitated AI adoption by explaining AI-enabled solutions and their potential to business stakeholders and teams.
- **Cross-functional Collaboration –** Worked with Strategy, IT, Transformation and Marketing departments to integrate market intelligence and new solution introductions into the transformation roadmap.

SITA Aero — Aviation & Travel Technology | Key Account Manager Assistant — Beirut, Lebanon May – Aug 2025

- **Infrastructure Modernisation –** Mapped the modernisation needs of 5 government entities and 12+ airport operators against competitor benchmarks, including Beirut Airport's biometric passenger path, and matched requests with the relevant SITA product teams.
- **Portfolio Insights –** Built interactive Power BI and Excel dashboards to visualise demand trends and adoption of 11+ SITA products across 7 solution categories for 15+ clients, helping the Key Account Manager identify which solutions to propose to each institution.
- **Performance Analysis –** Analysed client KPIs through dashboards to identify growth opportunities that created value for 4 key accounts, supporting a target of up to 15% account revenue growth within 24 months – contributing to building the future of travel.
- **Account Management –** Supported the Key Account Manager in 10+ stakeholder meetings across the aviation and travel ecosystem, documenting client needs and requests, writing meeting reports and updating records in Salesforce CRM.

Louis Vuitton — Maison Place Vendôme | Sales Advisor — Paris, France May – Aug 2023

- **Client Portfolio Development –** Built a portfolio of recurring Gulf and Arabic-speaking clients, advising international customers from five continents in English, French and Arabic.
- **Sales Performance –** Delivered against a €10,000 daily sales target, regularly exceeding it through direct sales and personalised client experiences.
- **Client Experience –** Managed 600+ end-to-end client experiences as a trusted advisor, applying clienteling and cross-selling to build lasting relationships.

EDUCATION

North Carolina State University / SKEMA Business School — Raleigh, NC, USA Aug 2025 – Jun 2026
MSc International Business, focus on AI & Data

Master's Thesis: How Can Digital Transformation Be Strategically Implemented in the Global South to Leverage Sustainable Development?
