MSc in International Business Graduate | AI & Data Analytics | Digital Transformation & Sustainable Impact | Nationality: French/Lebanese

Digital transformation strategy consultant supporting the IT department of Safran Aircraft Engines with initial project experience across IT transformation, PMO and account management in aviation technology, aerospace & defence, and luxury industries across 3 continents. Native English, French and Arabic speaker, I am available from January 2027 and willing to relocate.

## EXPERIENCE

**DEVOTEAM DIGITAL IMPULSE | Digital Transformation Strategy Consultant - Paris, France** Jul 2026 - Dec 2026

- **Digital Transformation -** Collaborated with a director to frame the programme's 2030 ambitions, scope, IT architecture impacts, project initiative details, methodology and governance for Safran Aircraft Engines' IT department
- **AI Product Design & Ethical Data -** Co-designed and co-led the delivery of 3 AI agents and agentic workflows with engineers, from ideation to implementation, applying responsible AI principles and ethical data use
- **Data Analysis & Automation -** Automated variance analysis, data consolidation, KPIs and reporting using Excel (VBA), Power BI and Python, cutting task time from 20 to 5 minutes per item and freeing 15+ hours monthly for strategic work
- **PMO -** Acted as PMO lead to monitor roadmaps and risk logs, track progress, coordinate stakeholders, identify improvements and raise alerts
- **Business Operations -** Streamlined operations and onboarding for 8 IT divisions (640+ employees), including an offshore hub in India

**SITA AERO - Aviation & Travel Technology | Key Account Manager Assistant - Beirut, Lebanon** May 2025 - Aug 2025

- **Infrastructure Modernisation -** Benchmarked 20+ aviation institutions and government entities against competitors and translated insights into data-driven transformation solutions and partnership strategies, including Beirut Airport's biometric passenger path
- **Portfolio Insights -** Built interactive Power BI and Excel dashboards to analyse multi-year demand and adoption trends of 11+ SITA products across 7 solution categories for 15+ clients, strengthening the solution recommendations made to each institution
- **Performance Analysis -** Developed a KPI framework tracking YoY revenue, contract renewal rate and clients' ROI on SITA solutions to assess the health of 15+ aviation accounts, identifying 4 priority accounts for a 24-month plan targeting up to 15% combined revenue growth
- **Account Management -** Supported the key account manager in 15+ stakeholder meetings across the aviation and travel technology ecosystem, documenting client needs, writing meeting reports and updating records in Salesforce CRM

**LOUIS VUITTON - Maison Place Vendôme | Sales Advisor - Paris, France** May 2023 - Aug 2023

- **Portfolio Development -** Built a portfolio of recurring international clients from 5 continents, advising in English, French and Arabic
- **Client Experience -** Managed 700+ end-to-end client experiences, applying clienteling and cross-selling to build lasting relationships
- **Sales Performance -** Delivered against a €10,000 daily sales target, regularly exceeding it

## EDUCATION

**SKEMA Business School / North Carolina State University - Raleigh, NC, USA** Aug 2025 - May 2026

MSc International Business, focus on AI & Data Analytics

Master's Thesis: "How can digital transformation be strategically implemented in the Global South to leverage sustainable development?"

**SKEMA Business School | Promotion President - Lille, France** Sep 2021 - May 2025
